

This tour is informal and we encourage questions and appreciate humor. We want you to be relaxed and have a good time.

We can accommodate up to 30 people.

Our studio is not child friendly; therefore we discourage children from coming. Fundraisers involving children will be managed differently than our regular tours.

Our guests need to be able go up and down stairs. We have a set of 9 stairs then a landing and then 5 more stairs. We have a railing on the side and we are glad to help everyone down and up. (One day, our studio will be a building separate from the house. Please bear with us in our future family room).

Please follow the website directions and not map quest. Our directions will save you time.

Donavon always makes the best desserts, so bring your sweet tooth. We have coffee, tea, water and soda.

Our tours are always enjoyable. We love talking about our candles. We take pride in making a product that our customers are proud to own.
